Opportunities through Growth

# Human Resources Development at the GAGFAH GROUP

## GAGFAH GROUP ACADEMY

The GAGFAH GROUP is the largest housing company listed on the stock exchange in Germany. We pursue a distinct strategy of growth. Our employees are considered an important resource and a key factor in our success.

Human resources development is part of our corporate strategy here at the GAGFAH GROUP and is aligned with the individual needs of our employees at the same time.

We expect a lot from our employees and provide them with challenging tasks and duties.

In return, we support them in their career through our strategic and efficient human resources development system, the GAGFAH GROUP Academy, which allows them to advance in their personal development as well.

The GAGFAH GROUP Academy offers programs for this that are adapted to both the employees and the corporate strategy. The specific needs regarding the individual personnel development actions are determined together with our employees during their annual performance reviews.

## THE BUILDING BLOCKS OF THE GAGFAH GROUP ACADEMY

The GAGFAH GROUP Academy allows us to continuously expand the professional competence of our employees in terms of technical, methodical, social, and personal qualifications. A company-wide culture of learning facilitates the transfer of the acquired skills and knowledge to the context of work.

The individual building blocks of the Academy significantly and comprehensibly contribute to the realization of the business goals and departmental objectives.

Best-in-class providers are available to us for the implementation of the training units.

Whether you are a trainee, a young professional, or a longtime employee: The GAGFAH GROUP Academy provides an optimal environment for professional and personal development. And for us as a leading housing company, the Academy also represents a major competitive advantage.
